A NOBLE ANSWER

That of Greece to the Ultimatum
of the Powers.

WOOD TO BE SEATED.

Blackburn to Be Withdrawn From
the Senatorial Race.

SUICIDE OF A WEALTHY FARMER.

London, March 8.—The reply of
Greece to the identical notes of the
Powers, delivered at Athens on Tues-
day last, and insisting upon the with-
drawal of the Greek troops from
Crete and of the Greek fleet from
Cretan waters, was received here at
noon.

The reply, after acknowledging the
receipt of the identical notes of the
Powers and recognizing the extreme
gravity of the situation, proceeds
as follows:

"The government of His Majesty,
King George, having examined with
the closest attention the points where-
on the great Powers agreed, believes
it a duty to submit to the Powers its
own opinion on the measures proposed
by them, an opinion which is the
outcome of long experience and pro-
found knowledge of the Cretan situ-
ation.

"Moved profoundly by the senti-
ments animating the Powers and
their solicitude for the general peace,
the Greek government will not fail in
its duty, because Greece also has an
ardent desire to contribute to the
maintenance of the peace and to pre-
vent from complete ruin islands so
long and sorely tried, and so often
devastated. We believe that the pro-
posed autonomy will unfortunately
fail to respond to the nobler intu-
itions which inspired it, and will
suffer the same fate as many pre-
vious unsuccessful experiments in
Crete."

The reply then refers to six pre-
vious insurrections in Crete, and ar-
gues the unlikelihood that the pre-
sent proposals of the Powers will ter-
minate in a state of revolution. It
concludes:

"Anarchy will ravage the country;
fire and sword in the hands of blind
fanaticism will decimate a people who
do not deserve such a fate. In the
face of such a prospect our responsi-
bility would be enormous if we failed
urgently to urge the Powers to re-
turn to Crete while she already had
at the time of the enforcement of the
other Greek provinces and to lead
her back to Greece, to whom she
properly belongs since Capri Island
was promised."

"In the presence of the recent
events of massacres and pillage,
the burning of Canes and the frightful
slaughter of the Cretans, exposed to,
and menaced by, the boundless fury
of Mussulmans, our whole country
was torn with remorse for its own
responsibility. It assumed last year
to persuade the Cretans to lay down
their arms, but the misfortune which
followed forbade us again to undertake
such a task. Kree had we attempted
it, our voice would have been only a
feeble echo, and would not have
reached the Cretan people."

"As autonomy would not fulfill the
noble aim of the Powers, its obvious
goal must be the situation of the un-
happy island from today until the es-
tablishment of autonomy. If the
Powers persevere in their decisions in
the face of the foregoing views, then
in the name of humanity as well as
in the interests of Crete, the pacifi-
cally minded of the Powers, we do
not hesitate to appeal to them on the
subject of another measure proposed
by them, namely, the recall of our
troops."

"Indeed if the presence of the for-
eign squadrons and the conviction
that they prevent the landing of
Turkish troops are deemed to render
unnecessary the presence of the
Greek fleet in Cretan waters, the
presence of the Greek army in Crete
is nevertheless shown to be desirable
alike from sentiment of humanity and
in the interest of a definite restoration
of order."

"Duty forbids us to abandon the
Cretans to the mercy of Mussulman
fanaticism and to the Turkish army
which always deliberately and inten-
tionally had shared in the aggressive
acts of the populace against the
Christians."

"Moreover, if our own troops,
which are worthy the fullest confi-
dence of the Powers, had received a
mandate to pacify the island, their
desires and intentions would have
been promptly received with the most
perfect satisfaction. Then, order
being restored, it would be possible
to ascertain the freely expressed de-
sires of the Cretans for a decision as
to their fate. The sorrow which
have regularly occurred in Crete for
many decades not only profoundly
agitate the Hellenic people, but in-
terrupt also all social activity and

TOOK POSSESSION OF A HACK.

Got Into Judge Sanders' Court—
Other Cases Tied Today.

THE WHEELIS CASE CONTINUED.

George Weakley, colored, can't
keep out of the lockup. He was ar-
rested by Officer Netherland this
morning on a charge of taking Law-
rence Glover's hack and horses out of
the stable last night and running
them until daylight without permis-
sion.

Weakley admitted that he took the
team out, but said he did it at the in-
stance of the night driver, who asked
him to make a call for him. The
case was left open until tomorrow.

THE WHEELIS CASE CONTINUED.

The case against Clayton Slade,
colored, charged with stealing coal
from the Illinois Central, and sus-
pected of shooting Watchman W. L.
Scott, was continued until tomorrow.
Slade says he can establish an alibi.

A case against Will Taylor, colored,
charged with a breach of the peace,
was dismissed.

Oscar Roberts, a carpenter, was
fined \$5 and costs in Judge Sanders'
court today on a charge of a breach
of the peace. He had trouble with
Rufus Brunson, colored, about put-
ting matches on Rufus' mule.

The peace warrant against Mrs.
Mattie Wheeler for threatening Miss
Sallie Farmer was continued.

Julie Tichenor Leaves His
Estate.

County Judge Thomas Probably
Left No Will.

The will of the late Julie Tichenor,
of the county, was admitted to prob-
ate in the county court this morn-
ing.

The deceased leaves his entire es-
tate to his step-son, Robert Over-
street.

The late County Judge C. H.
Thomas evidently left no will. If he
did, the instrument has not been
found. It would have been admitted
to probate if presented at this term
of court.

HARPER GOES FOR LIFE.

Third Accessory to the Murder of
John Howard Escaped the
Gallows.

Ed Harper, an accessory to the
murder of John Howard at Wingo
last September, was tried at Mayfield
yesterday and sentenced for life to
the penitentiary. Oscar Sanders and
James Williams were given similar
sentences Saturday.

A dispatch to the Sun from May-

SENATOR OGILVIE

Will Not Attend the Extra Ses-
sion.

AT LEAST, IT LOOKS THAT WAY.

He Is Still Helpless and Unable to
Leave His Bed.

DR. BROTHERS TALKS OF HIS CONDITION.

Senator J. W. Ogilvie, of the
county, who has been dangerously ill
at the residence of his son, Mr. L.
H. Ogilvie, on South Fifth street, for
several months past, will not attend
the extra session of the legisla-
ture called for the
15th of this month by Gov. Bradley.

Senator Ogilvie, as is probably
already known to almost everybody
in the county, has been down with a
violent attack of eczema for over a
year.

When the legislature convened in
January, 1896, the venerable Senator
could not attend the opening of the
session, and it was some time after-
wards that he left for Frankfort, be-
ing then accompanied by his physi-
cian, Dr. C. H. Brothers, who re-
mained with him throughout the ses-
sion, and gave him the most careful
attention.

During the several weeks Senator
Ogilvie was there he was practically
helpless a large part of the time, and
was frequently conveyed to the sen-
ate chamber on a litter. He im-
proved some after his return to Pa-
ducah, however, but for several
months has again been helpless, and
is now unable to walk or leave his
bed. The eruption is still quite irri-
tating, but he does not suffer as he
has in the past.

Dr. Brothers was seen by this time
and was frequently conveyed to the
senate chamber on a litter. He im-
proved some after his return to Pa-
ducah, however, but for several
months has again been helpless, and
is now unable to walk or leave his
bed. The eruption is still quite irri-
tating, but he does not suffer as he
has in the past.

I can't say for certain whether
he will be able to go or not," Dr.
Brothers said, "but I can say posi-
tively that he cannot go on the 15th
of this month, and the prospect, I
think, is very gloomy for him."

Senator Ogilvie has intimated no
intention of resigning, owing to his
inability to attend the session, but it
is thought that he will resign when
he feels certain that he cannot go to
Frankfort.

The sudden death of W. W. Nim-
mo, of this place, was quite a shock
to the entire community. Mr. Nimmo
was postmaster at this place and had
many friends. It is reported that
his death came from the effect of an
over dose of morphine which he took
through a mistake in the dark.

There is a big fight over who
shall have the post office at Benton.
There are about four different par-
ties who want the office, but from all
reports the mass of the Republicans
are in favor of Geo. W. Riley being
postmaster for a term.

T. T. Grubbs, one of the leading
grocers of this place, has been con-
fined to his room for quite a while
with rheumatism.

There will be more people here on
May the first, if it is a nice day, to
take part in the mass convention
called by the Populists, than have
been here for a long time, and the
nominee's will stand a good show for
election in November. Everybody
is coming and will bring a wagon

EXCURSION BOAT.

The George W. Parker May Be
Transformed.

THE LINEHAN COMPANY'S PLANS

Are Negotiating With the C. & E.
I. R. R. for the H. S.
McComb.

INTERESTING NEWS OF THE TRANSFERS.

There is a strong probability that
the two big Linehan transfer steam-
ers, George W. Parker and H. S.
McComb, which have been harbored
above Paducah in "Duck's Nest"
since October, will be taken out in a
short time.

The Linehan company, it is under-
stood, contemplates converting the
Parker into an excursion boat, and
carrying her to St. Louis for the
summer.

She is eminently fitted for a craft
of this description, and is about as
large and fast a boat as can be made
or desired. In case Capt. Linehan
decides to make an excursion boat
out of the Parker, all the repairing
and remodeling will be done at Pa-
ducah, and will be a great benefit
to the city, for it will furnish work
for quite a number of men for some
time to come. It is also said that
the Linehan Transfer Co. is in negotia-
tion with the Chicago and Eastern
Illinois railroad, which is said to con-
template entering Paducah from
Marion, Ill.

The line was recently extended to
Marion, and it is at least the general
impression among those who know
that the road will be extended to the
Illinois shore, opposite Paducah, in a
short time, in which case the Linehan
Transfer Company desires to con-
tract for having the McComb do the
transferring of trains from one side
of the river to the other.

This transfer company is one of the
most energetic and enterprising in the
country, and is now building a large
ferry-boat at Dubuque, Ia.

TUESDAY, MAR. 9, 1897.

It is said President McKinley has set the gossip to talking by actually taking a walk down town. That is a diversion in which no President has indulged, it is said, since sturdy General Grant.

Mr. McKinley has given the Senators and Congressmen a hint that if they expect to get patronage for their constituents it will be well for those of each state to unite and agree among themselves, and thus simplify the work of the President.

A COMMITTEE appointed to investigate charges of bribery against two members of the legislature of Idaho, in connection with the election of Healdfield to the United States Senate, has recommended their expulsion, having found them guilty. It really looks as if somebody was a candidate for the penitentiary in that connection.

BOS INGRAM has a new lecture and it is worse than the other. Bob wants to know "What valuable fact ever has been proclaimed by the preachers." He says the churches are not in favor of education, and adds: "The church denies the eternal, the inevitable sequence of events," but then Bob ought to tell us what that means.

GENERAL POWELL CLAYTON gets the plum to which Mr. Jerry M. Porter was an aspirant. Jerry did not get in his work soon enough, probably. We predict, however, a good place will be found for the king of good fellows, who can muster the whole of the commercial travelers of the United States in his support. Many friends in Paducah and all over the state of Kentucky will hope so, at least.

OUR Senator Wood will wear the biggest whiskers in the Senate and so far as the whiskers go will be a worthy successor to his uncle of Kansas. We expect, however, to find him a man of far more influence, should he have the good fortune to wear for any considerable length of time the Senatorial toga. It is a distinguished honor to be the first Republican Senator from the great state of Kentucky, and Mr. Wood says it came entirely unthought.

We are told from Washington that appointments will be few until after the needed tariff legislation is effected, which leads to the impression that President McKinley has declined to go about his business in a business way. In other words, having set up to housekeeping with a big household of servants and heavy expenses, as a sensible householder he is going to give his first attention to providing the means of paying the expenses, and does not propose to let his bills run and accumulate at the rate of \$4,000,000 to \$7,000,000 per month.

It is conceded that the leader in the pro-Turkish movement of the Powers of Europe is the Emperor of Germany. This young darling of a great ancestry imagines the sun rises and sets for him. On all occasions when he finds it convenient to address his armies or public functionaries he seeks to impress the divine right of Kings. But a spirit of Republicanism, under the opprobrious name of socialism, is abroad in his domains and unless he looks well to himself he may find the Emperor's powers greatly curtailed before he lays aside the scepter.

What a far-reaching effect a little word may have sometimes. Chauncey M. Depew, of New York, has very generally been slated for one of the foreign missions. But Chauncey talked a little too much and in order to suffer Mrs. Hohari, serious-

ly deprecated Mrs. McKinley, in the effort to be gallant to the Vice-President's wife becoming very ungallant to the President's spouse. Naturally some feeling was engendered, and now Mr. Depew will, it is said, have to continue to content himself with being the prince of after-dinner talkers without wearing any official robes from this administration.

UNDER Greek rule the Mussulmans resident in Crete would be permitted to pursue the even tenor of their ways and worship God according to the dictates of their own consciences, so long as they respected the rights of their neighbors. Under Turkish rule the Greek Christian residents would be subject to every indignity that could be heaped on a "dog of a Christian" by the ignorant and bigoted Mussulmans. It is the latter condition that the Powers seek to impose. Can there not be found one nation among them so strongly imbued with the spirit of the 19th century as to impel a halt before such a crime is perpetrated?

TELEGRAMS were received at Havana Sunday which insisted that it was absolutely necessary that Sylvester Scovel, the American newspaper correspondent who is confined in the jail at Sancti Spiritus, should immediately be removed to Havana. They were interpreted to mean that his life was in danger. One was from United States Consul Agent Madrigal and said: "Scovel must be taken away from here immediately." The other was from Scovel himself and read: "I must be brought to Havana at once pending trial at Santa Clara." Another dispatch states that an effort is being made to take Scovel away from the civil authorities and have him tried by court martial. All these things indicate that there is grave danger of complications over this case yet.

SENATOR LINCOLN, of this state, introduced the Torrey bankruptcy bill into the Senate on the last day of the session. When asked why he had done so, he replied: "Simply to have copies of the bill to send to inquiring friends of bankruptcy legislation and to show that, notwithstanding the fact that the bill was not considered by the Senate at the last session, we shall persevere until this constitutional right is available to the people." In referring to the scope of the law and the people to whom it applied, Judge Lindsay said: "I believe that this bill is well calculated to be enforced, in connection with other Federal laws and the laws of the states, with very little friction. Although previous laws have been repealed, I do not believe this one will be, but that it will remain as a permanent law, subject to amendment from time to time, as occasion may require." In summing up the whole bill Judge Lindsay, who is recognized as one of the best lawyers in the Senate, said: "It is the best pronouncement on bankruptcy ever drawn by an American."

That an earnest effort will be made by President McKinley in conjunction with Congress to deal intelligently and effectively with the trusts is evident from the language of his inaugural address. On this subject he said:

"The declaration of the party not restored to power has been in the past that of opposition to all combinations of capital organized in trusts or otherwise to control arbitrarily the condition of trade among our citizens and it has supported such legislation as will prevent the execution of all schemes to oppress the people by unjust charges on their supplies or by unfair rates for the transportation of their products to market. This purpose will be steadily pursued, both by the enforcement of the laws now in existence and the recommendation and support of such new statutes as may be necessary to carry it into effect."

Some important legislation was pending in Congress at the time of its adjournment with reference to the trusts. Congress is in a mood to meet the President half way. The committee having in charge the bills that were before the last Congress delivered itself in a forcible manner on the subject in favorably reporting a proposed bill. It says:

"The question has aroused so much interest and given rise to so much discussion that it has become a question of national importance. There are probably few subjects for public concern on which the people of the country are so united as in condemnation of the evils attendant upon the modern trust. Combination and concentration of capital is a striking feature of the age, and has been the instrument of much of our material development and has cheapened production and distribution; but in this latest phase it has been accompanied by so much injury and ruin to others, such cruel destruction of rivals, such widespread corruption and intimidation that public attention has been naturally diverted from its benefits and has concentrated itself almost solely upon its evils and demands that they be remedied."

We may confidently look forward to and expect anti-trust legislation of importance within the next year.

The Spanish press and officials seem to have taken Mr. McKinley's silence with reference to the Cuban matter to mean that he will pursue a policy similar to that of his predecessor in office, and that they will be permitted to harass, imprison and even murder American citizens at will. But they need not lay this flattering unction to their souls. Said a congressman who is well versed in foreign affairs:

"I talked with Major McKinley at Canton about the Cuban question, and I know whereof I speak when I say that he is in deep sympathy with the patriots. He told me that he hesitated to express himself because he was not in a position to secure information, but he intimated that immediately after his inauguration he would look up all the correspondence and inform himself thoroughly. Of one thing we may be absolutely certain. Lives of American citizens will be protected at all hazards. Not one, but ten ships of war will be in the harbor of Havana within forty-eight hours after the next outrage."

In his inaugural address on the subject of the enforcement of American rights he said that this government would insist "upon the enforcement of the lawful rights of American citizens everywhere." To this he added: "Our diplomacy should seek nothing more and accept nothing less than this." There would have been no occasion for such an observation as this but for the fact that Americans had not been duly protected in the view of the speaker. Mr. McKinley's silence on the Cuban matter was probably induced by a desire fully to inform himself on the pending question by a study of the correspondence in the State Department, which Mr. Olney saw fit to withhold from the national congress and the public. He has an evident determination to be sure he is right, but when he satisfies himself we may be sure his policy will be such as to satisfy reasonable Americans that he means to and will uphold the honor of his country and protect the lives, liberty and property of its citizens. There is a feeling at Washington that within a few days there will be important developments in Cuban affairs. We may look for it very promptly if further outrages should be perpetrated on Americans.

GASPS all over this country are reported to be enthusiastic in their determination to fight for the mother country. There are said to be 5,000 fighting men who are anxious to respond to the call to arms. Of this number 800 are in Chicago. The story of the ceremony which the Chicago Greeks went through at their church is interesting, as related by a Chicago correspondent, and is as follows:

Before the images of their saints 500 Chicago Greeks today raised their hands and swore to give their lives, if need be, for the defense of their native land and King George. The candles in the niches along the wall and before the altar of the little Greek church, on Kinzie street, twinkled dimly, while awfully men, with heads bent down and hands raised high, repeated the words of the priest. Kneeling a moment before the niche, in which stood the image of the Saviour on the cross, the priest arose, and turning to his congregation, walked slowly down the aisle, steps and passed along the center aisle, between the rows of the devotees.

"I swear to Almighty God, to Jesus Christ and to the saints," said the priest, in tones that penetrated to the corners of the room. Every lip moved as the congregation repeated the solemn words. "To George II, the King of Greece, and to the flag of our native land," went on the priest, as with his arms spread before him and his eyes raised, he walked slowly on down the aisle. "To King George II. and the flag of our native land," repeated the voices of the men, "that I will go to the help of my King and my country, that I will not draw back, whatever may be required of me." There was no hesitancy in the response.

The priest had reached the end of the aisle. He turned and, raising his voice continued: "And that I will shed my blood, if need be, and give up my life, if it is required, for the flag, for Jesus Christ and for the King." "For the flag," murmured the men, as the dim light of the candles was reflected from their resolute faces. "For Jesus Christ," there was a pause, as every head was bowed and the signs of the cross made over every heart. Then the words were raised: "and for the King," came with a tumult. The men sprang upon their seats, tossed their hats on high and the candles flickered wildly as the air was shaken with the reiterated cry, "For the King, for the King."

A table was placed in the center of the room, and a committee hastily took down the names of those who had taken the oath. Then Father Philadelphe stood before the altar again and told his people that they had taken an oath to go to the aid of their country. He said when the Greek Consul General in New York should telegraph to them what arrangements had been made for transporting them back to Greece they would again kneel before the images of their saints and swear over the gospels and their flags never to lay down their arms until peace had come to the land of their birth. Before the oath was given the priest explained to the excited men the appeal which King George sent to the Greeks in America, calling upon them to rally to their country's aid. The priest advised his people to arrange their affairs and

be in readiness to go as soon as final orders should come. After the names were taken they were read over, and as each man answered "Here," it sounded like the roll call before a battle. The work of enrollment continued last night all over the city under the direction of the five Greek societies, and it is expected a force of 800 fighting men will be reported tonight.

READING THE MOUTH.

An Art That Has Come On—More Into Popularity.

It includes a study of the other facial features, and the position of the lips in the estimate of human character.

Buccomania is again in fashion. The student of the mouth, but our fathers knew it. Buccomania is the art of revealing the past, present and future of a person by an inspection of his or her mouth.

William Rogers, who flourished about 150, and who was a prosperous dentist, discovered the art and spread his views thereon in a work, which may be found at the Academy of Sciences, "How to Read a Mouth," and Rogers said: "I will tell you what he has been, what he is, and what he will be." He added that this new system of divination was based on the teaching of the most celebrated physiognomists, and principally upon the discovery of a buccal alphabet—that is to say, upon the characteristics and telltale signs of the human mouth.

Certain scientists today are studying the following rules, which will prove of interest:

Cheeks are first in order, for, according to buccomania, they form part of the mouth. As a rule, fleshy cheeks indicate security and a general mixture of temperament, whereas thin and shrunken cheeks are a token of melancholy and dryness. Chagrin produces the hollows, and severity and ferocity give birth to deep wrinkles. A cheek, which is naturally gracious, and which toward the eye is stirred by a slight tremor, is an almost infallible sign of a heart tender, generous and incapable of any vengeance.

The space between the nostril and the extremity of the mouth is very significant. If it is covered with any shading or undulation, it is an infallible sign of folly. Child tell many a story. A round chin which has a dimple signifies kindness; a small chin, timidity; a flat chin, coldness and dryness of temperament; an angular chin, diplomacy, prudence, firmness; a pointed chin, craft and guile; a long, large, heavy chin, hardness, pride and violence.

Teeth too, are revealing of character. White teeth, which are well arranged and give the mouth a pleasant smile, denote an innocent heart for finance, but at the same time a hard and revengeful character. Long teeth are a sure sign of weakness and timidity. Those which are very prominent and which seem to rest on the lower lip, broken a kind of energy and spirit. "Everyone knows," says the learned Herder, "that the upper lip reveals the tastes, the tendencies, the appetites, the loves of a man, according to the extent to which pride and anger curve it, fineness sharpens it, kindness rounds it, and delinquency enervates and lardens it."

Rogers claims that a man's character is of the same stamp as his lips. Either firm, soft, or mobile according as they are firm, soft, or mobile. Large and well proportioned lips in a man denote a frank, generous, friendly and a loving toward womanly and indulgent. An upper lip which is slightly protruding is the mark of affectionate fondness, whereas a protruding lower lip is the mark of a cold nature. A lower lip which is hollow in the middle reveals a character full of playfulness and harmless wit. Lips closed tightly, the distance between which is a right line and the edges of which are not seen, are a sign of coldness, austerity, exactitude and neatness. A mouth gently closed and of harmonious proportions indicates a free, receptive and generous character, whereas a mouth always gaping is the sign of a fool. Moreover, a mouth which is twice as long as the eye is the sign of an idiot.

Finally, Rogers tells us that we must regard a "sanctuary" that mouth which is calm, which is closed easily, and without any tension, which has no hollow, and which, as regards lines, is free from wrinkles, and as regards color, is pure and rosely. Men and women who are bold and courageous are recognized by their slightly long eyebrows, by their mouths dropping down over their mouths, which are always very large, and by their teeth, which are long, sharp and strong.

POOR GUN CLUB!

Their Traps and House Float
Away.

WHOLE "JOBLOT" VANISHES.

Forgot to Take the Traps Where
the River Couldn't
Get them.

CONSIDERABLE LOSS TO THE CLUB.

The Paducah Gun Club is some-
what disabled, and a few of the mem-
bers are mean enough to ascribe the
lamentable state of affairs to politics.
The fact is that their fine trap, house
and all their traps, electric batteries
and several thousand targets were
carried away by the turbulent Ohio
yesterday, and are now probably
beyond the ken of mortal man. This
might not have been if most of the
members were not running for office,
so some of them aver.

The traps cost about \$100, with
batteries and other requisite appur-
tenances, and the trap house was 70
feet long, very staunch, and cost
about \$100 more. The "blue rocks"
stored away were worth \$50 of \$40,
and all this job lot is probably
floating like a torpedo boat some-
where down in the depths of the mad-
dened stream. The outfit was located
at Riverside Park, below the
city, near the Illinois Central incline.

When the river began to rise not
long since some of the members sup-
posed that the traps had been re-
moved to a place of safety by some
of the other members, and the latter
likewise supposed that the club's be-
longings had been reserved by some-
body else. Sunday the startling dis-
covery was made that the traps were
still in the house, of which only a
small portion was then visible. Mr.
Fred Hoyer went down, and finding
that the river had receded slightly
deposited a quantity of iron in the
bottom of the house to hold it down.
The structure seemed to have the ca-
pacity of a flat boat; however, and
the swift current wrested it from its
moorings, and down stream she went
iron and all. It is not known what
became of it. Somebody went down
in a skiff to look for it yesterday, but
no trace could be found.

Dr. Jim Lang declared to a Six re-
porter this afternoon that it was
tough luck they were having. "The
funny part of it," he said, "is that
an old fisherman—I've forgotten his
name—caught one of the traps that
had in some way gotten out of the
house, in his trout line near the in-
cline, and was afraid to pull it out.
He thought it was a devil-fish—you
know they do look like a big crab,
and came to town to get somebody
to help him kill it."

"I'll tell you about it though,"
confidentially concluded the smiling
doctor in a fit of levity, "I went
down myself and moved the traps
last year, and came near getting
drowned for my trouble. I would
have gone down again this year, but
to be honest with you, I was sorter
afraid I'd get lost and then the city
would have no mayor after Novem-
ber."

INSANE FROM POVERTY.

Tad Plight of Caroline Johnson,
Colored.

Can't Be Taken to the Asylum Un-
til She Finds Clothes.

Deputy Jailor Grady thinks that
the case of Caroline Johnson is an
unusually pathetic one. She is a
young colored woman with two small
children, and lived in Mechanics-
burg until yesterday, when she was
tried for larceny, adjudged insane and
ordered to Anchorage. Constable
Alex Patton was appointed to take
her, but did not leave
because the woman hasn't
enough clothing to present a respect-
able appearance. The constable has
to wait until some are made and in
the meantime she is in jail.

She is rational at times, and told
the good hearted deputy jailer today
that she was left alone with two
small children to take care of and no
means of support. Her children
were too young to leave alone, she
said, and she had no chance to go
out even to beg.

The deputy jailer thinks poverty
deranged her mind.

NO INDICTMENT YET.

Noah Franklin's Case Still Under
Investigation.

The grand jury is still investigat-
ing the Noah Franklin case at Ben-
ton, and all statements as to what it
will do are mere speculations. It is
said that Franklin and two accom-
plices will be indicted, but all the evi-
dence will not be in until tomorrow.
